Solution-oriented **Full-Stack Developer** with a Bachelor of Business Administration and with 5 years of varied work experience. Superior skills in HTML, CSS, JavaScript, APIs, MySQL, MERN and various web development frameworks. Highly organized and detail-oriented with the ability to work independently and collaboratively. Proven ability to solve complex problems and create innovative solutions. A lifelong learner who recently graduated from Code Youth - **Intensive Coding Program** and University of Toronto SCS - **Full-Stack Coding Program**, and who is expected to receive the Google Project Management Certification when graduating from the Google Game and Application Academy in June 2023.

TECHNICAL SKILLS

• Full-Stack coding languages including HTML, CSS, JavaScript, DOM, APIs, Bootstrap, jQuery, MySQL, MERN
• Agile environment using industry tools such as Jira, Confluence, Git, Slack, and GitHub

Selected Projects

Curriculum App (in progress)
HTML (EJS), CSS, JavaScript, Express, Bootstrap, jQuery
• Developed a demo to create a gamified curriculum web application that focuses on the nuanced aspect of learning code with four members of the Code Youth group.
• Implemented Scrum which is an agile development methodology to improve project processes and project management.
• The project to create a curriculum page for code Youth has been decided as voluntarily with the group and the process continues.

Library
HTML (handlebars), CSS, JavaScript, Node.js, Express, MySQL, Sequelize ☁ https://github.com/burakcersit/Project2-Library.git
• Developed a web application that mainly focuses on basic operations in a library like adding new members, and new books, updating new information, searching books and members, and facility to issue and return books.

Crypto-King
HTML, CSS, JavaScript, Bootstrap, jQuery, Chart.js, Coinranking API ☁ https://github.com/burakcersit/Project2-Library.git
• Developed and deployed a fully functional JavaScript-based application that tracks and displays the top 1000 cryptocurrency prices and fluctuations in a table list.
• Created charts to show the price trends and fluctuations of the top 50 cryptocurrencies with a description of the currency using the Fetch API in JavaScript to retrieve data.
• Used the Coin-Ranking cryptocurrency site as a sample site for retrieving the data, resulting in Coinranking-API was displayed in a Bootstrap 5 table.

Relevant Accomplishments

Customer Service and Communication
• Developed and implemented friendly and efficient customer service, increasing customer satisfaction by 15%.
• Orchestrated and presented promotions for a corporate company through effective communication, introducing products, and solving customer issues.
• Efficiently fulfilled and prepared customer orders.
• Politely and positively communicated with customers, other employees, and supervisors.
• Responded to inquiries pertaining to company processes, procedures, and packages.

Leadership and Administration
• Created a schedule and plan for the project with a group of 8 employees, and communicated with suppliers, site supervisors, and other companies to discuss the process of the job, organized the materials to reduce waste of materials and time, estimated the needs of materials, and ordered, and inspected the completed jobs by employees.
• Expertly performed in commanding, guiding, and directing the unit, solving problems in times of crisis, always respecting the chain of command.

Organization
• Identified and reached out to students who wanted to visit Europe and introduced them to Europe Rail. Assisted them with their application processes such as their application forms, scheduled the interview, explained results, and prepared necessary documents for their visa application.
• Reorganized grab-and-go boxes to reduce lines in a deli department by 30%.
• Accurately calculated and recorded orders, ensuring quality control. Managed food safety measures, and controlled inventories.
• Effectively liaised with clients who wanted to receive consultancy services. Clarified the application process, and informed clients of the process as well as of next steps.
• Created a database to keep track of client progress using Excel Sheets.

Work Experience

Foreman, Aytu Construction LTD, Toronto, ON	2021 - 2022
Drywaller and Framer, Universal Acoustic INC, Toronto, ON	2019 - 2021
Sales Representative, Avruparail, Kayseri, Turkey	2019
Deli Service Clerk, Kroger, Myrtle Beach, SC, USA	2018
Marketing Internship, Turk Telekom, Kars, Turkey	2018
Sales Representative, Campus International Educational Consultancy, Kayseri, Turkey	2018 - 2019
Management and Organization Internship, School of Infantry, Istanbul, Turkey	2015

Professional Development and Training

Full-Stack Coding Program
University of Toronto SCS • Oct 2022 - Feb 2023 ☁ utoronto.ca
• Advanced in full-stack coding languages including HTML, CSS, JavaScript, DOM, APIs, Bootstrap, jQuery, MySQL, and MERN.
• Collaborated in a team and project-based coding experience including 3 main group projects and built 20 individual challenges.
• Learned the most in-demand web development skills through real-world examples.

Intensive Coding Program
Code Youth • Nov 2022 - Jan 2023 ☁ code-youth.ca
• Developed proficiency in front-end coding languages including HTML, CSS, JavaScript, DOM, and Express.js.
• Trained in a team and project-based Agile environment using industry tools such as Jira, Confluence, Slack and GitHub.
• Integrated **SCRUM** training skills when designing and developing team projects.
• Developed communication and team skills with a focus on career planning and preparation.

Game and Application Academy
Google Turkey •Virtual Learning• expected to graduate in June 2023 ☁ oyunveuygulamaakademisi.com
• Selected within the first 2000 among 35000 applications to receive coding education supported by Google Turkey and the Turkish Government.
• Gained proficiency in developing Android and iOS apps with Flutter, games for mobile and PC using Unity, and art of games using Maya and Photoshop Tools.
• Discovered efficient and effective project management, using both traditional and Agile methods by joining the Google Project Management Certification program.
• Completed technology entrepreneurship training in subjects such as law, finance, and human resources for entrepreneurs.

Certification

Google Project Management Certificate
Google Career Certificate • expected to graduate in June 2023
• Course load includes estimating time and budgets, running effective meetings, and managing stakeholders, identifying, and managing risks, applying Agile and Scrum frameworks, and leadership skills, navigating team dynamics, and management of projects efficiently and effectively, using traditional and agile methods.

Academic Education

Bachelor of Business Administration
Abdullah Gul University • Kayseri • 2019 • 3.02 GPA

Community Leadership

Peer Programmer
Code Youth, Ottawa, ON   2022 - present
• Supported and assisted trainees with their team projects and the preparation of their portfolios for the end of the coding session.
• Working on the curriculum web page project with the team for Code Youth.

Member
Toronto's COVID-19 Volunteer Response Team, Toronto, ON   2020 – 2021
• Picked up supplies and delivered them to people who had COVID 19.

University Representative
The Team That Makes Children Happy, Kayseri, Turkey   2017 - 2018
• Represented the university in a project created to meet the needs and wishes of children. Planned and implemented the process to make one child happy on a weekly basis.
